

# Nabovarme

## DIY Central Heating Infrastructure

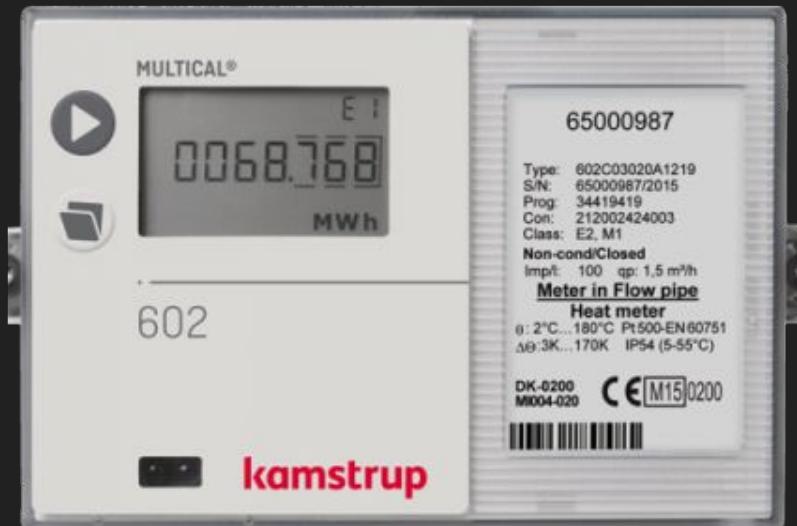

# Nabovarme is a word for community heating

# History of heaters

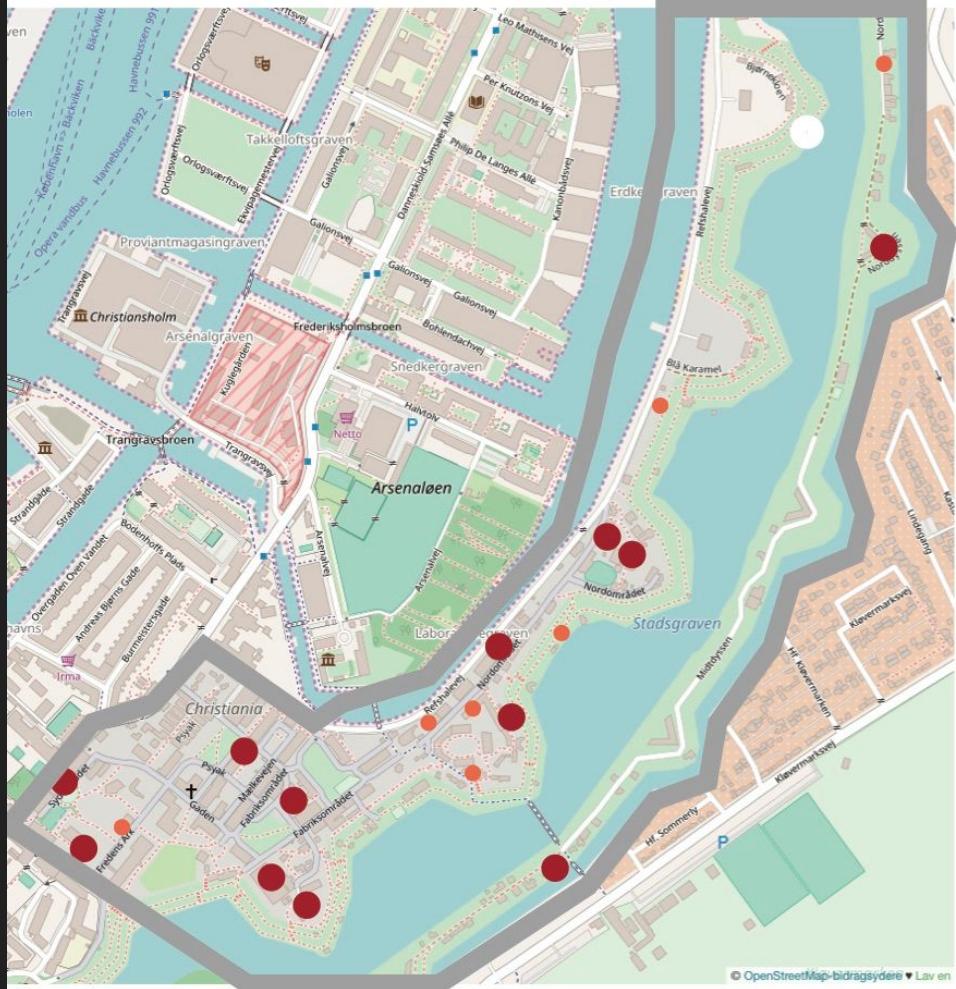

# Kamstrup Multical 602 - first to be reverse engineered

# Pellet heating systems in Christiania

Large red dots:  
major systems

Small orange dots:  
some of many independent units

# Communities with Communities inside

# Christiania - an old army base

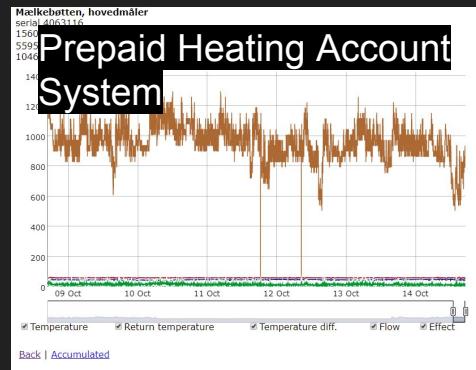

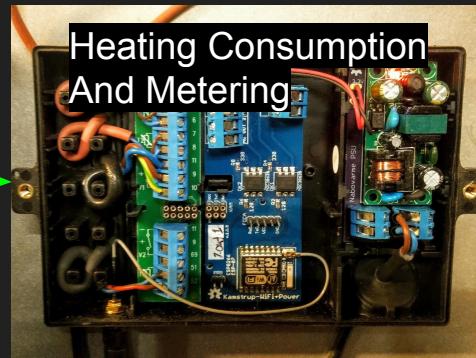

# Nabovarme in Christiania, Copenhagen

- 46 year old squatted area
- 900 inhabitants
- 265 houses
- 24 hectares land
- 1 km from Danish parliament

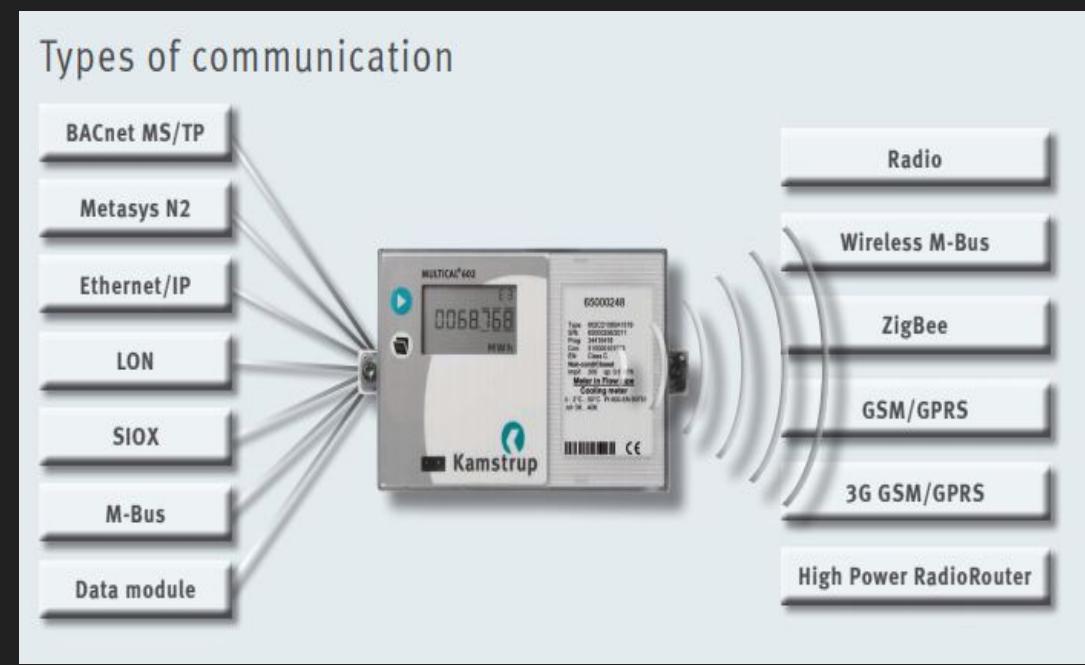

# What is Nabovarme?

# Kamstrup solutions

- No WIFI option - requires additional infrastructure
- No open software to receive data
- Enterprise

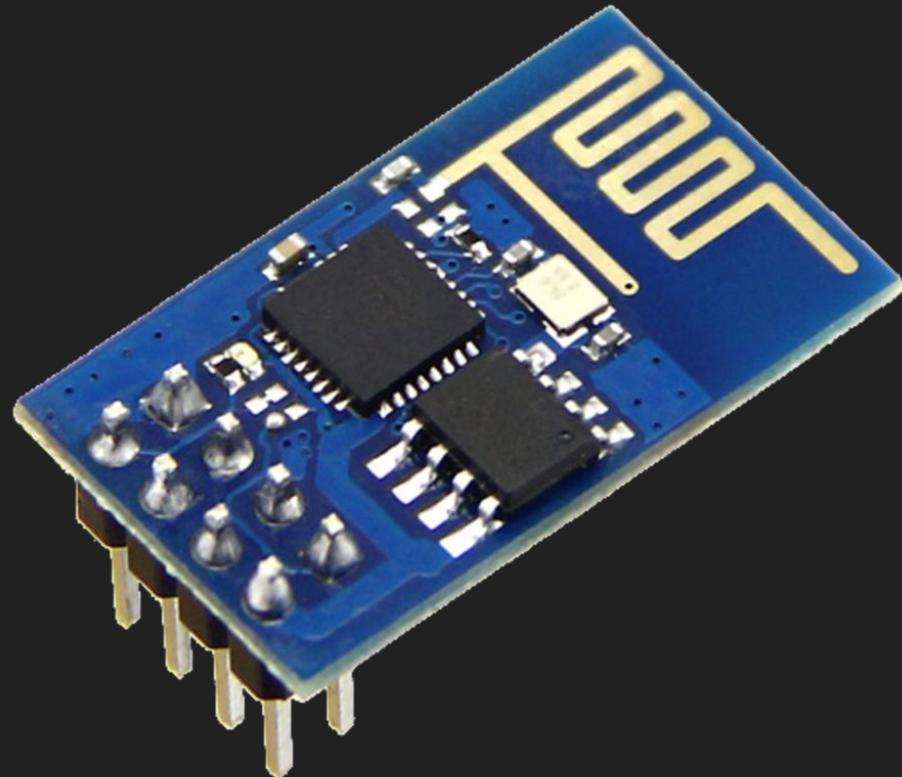

# Nabovarme users are willing to share WIFI to meters

- 350+ users
- 150'000€ worth or wood burned yearly
- Huge diversity in income, social class, heritage etc.
- Low level of interest in heating

# ESP8266 - Microcontroller with wifi for 1\$

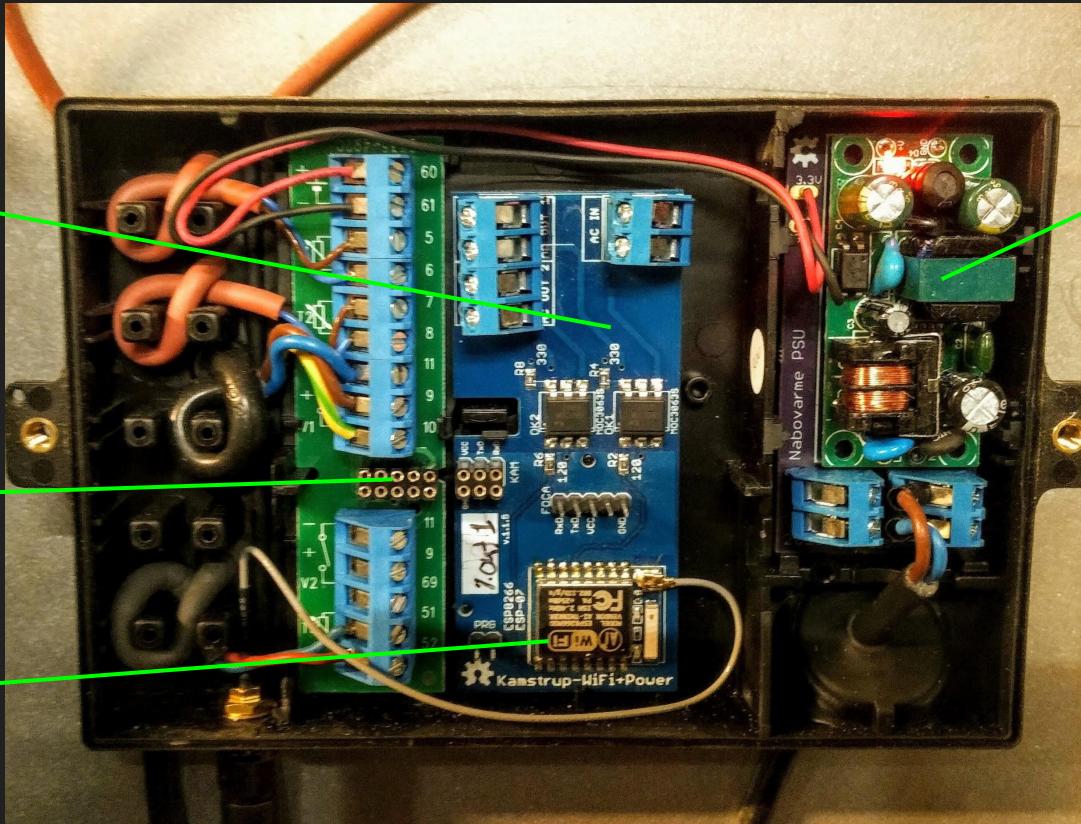

# MeterLogger Hardware

MeterLogger PCB

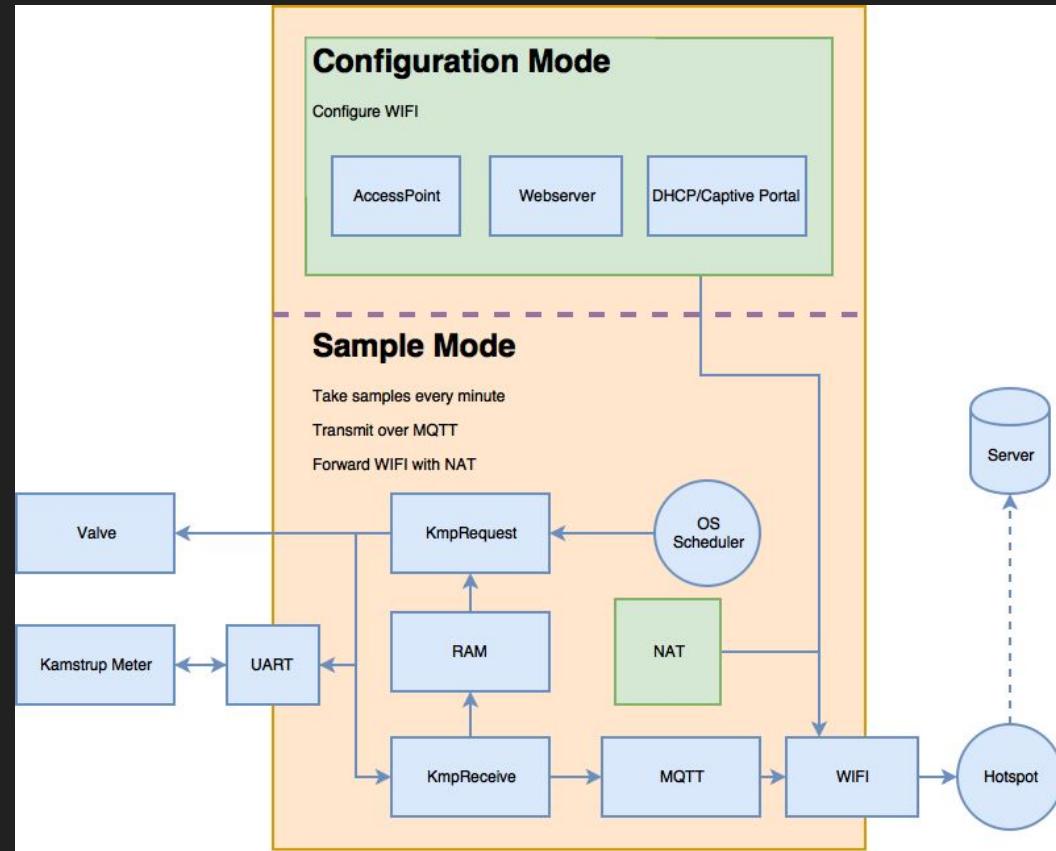

Kamstrup Connector

ESP8266

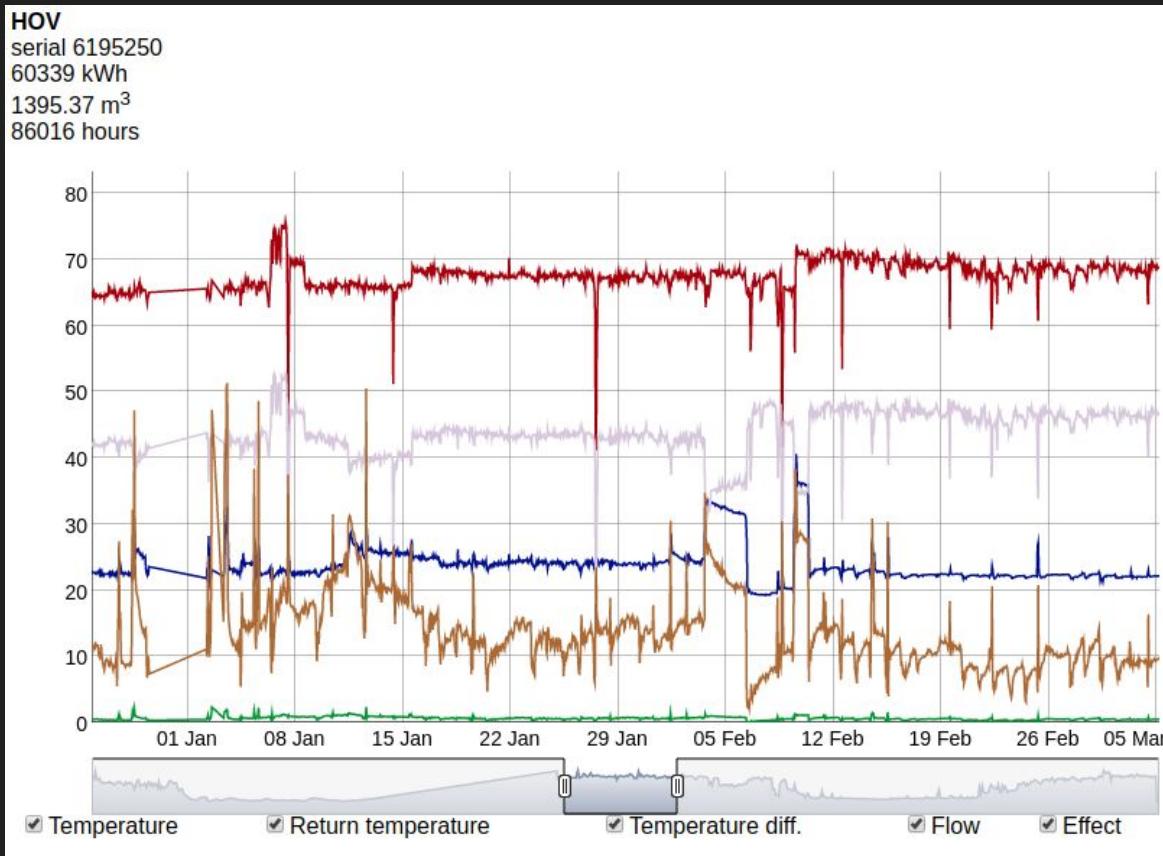

MeterLogger PSU

# Meterlogger Firmware

Aircond\_Skurvogn - NDE024A

Navn: Aircond\_Skurvogn  
Kode: XXXXXXXXXX  
Place: aircondition  
Omraade: ND  
Type: PrivatMåler  
Målenummer: 0  
Elvand type: Elmåler  
Bemærkninger: Måler inde i Skurvognen ved Aircondition
